Clarence Obini Dinka'a Ebebe

FREELANCE WEB AND MOBILE APP DEVELOPER

I am a Solution-driven Web Developer adept at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction. Proven experience developing consumer-focused websites using HTML, CSS, PHP and JavaScript. Built products for desktop and mobile app users over 2+ years, meeting highest standards for web design, user experience, best practices and speed. Designed and developed web applications across multiple APIs, third-party integrations and databases.
Creative Mobile Application Developer talented at integrating novel design elements and interaction points to build new and exciting user experiences. Known for advancing mobile apps through unique and unusual interfaces. Committed to presenting users with easy-to-use interfaces and entertainment elements while driving exceptional ROI.

OBJECTIVE

To obtain a fully funded scholarship For my 3 year educational study at the university of Johannesburg. I am currently studying for my Bachelor of science in Computer science and Informatics with Artificial Intelligence.

My Bachelors program will enable me to gain a deeper understanding of higher education and prepare me for programming based jobs. As a result of my work with many administrators, I have had many educational and life-changing opportunities. The nature of this program provides me with an opportunity to continue to be a catalyst, not only within higher education but also in my community. With this, I will be able to study further into the college expectations and reach higher heights in the world of computers and programming
